What is Pension Auto Enrolment?

Pension Auto Enrolment is a UK law that requires all businesses to automatically enrol their employees into a workplace pension scheme if they are:

- Aged between 22 and State Pension Age
- Earn more than £10,000 per year
- Work in the UK

Pension Auto Enrolment is a mandatory requirement that requires all employees to be regularly assessed against the enrolment criteria and enrolled in a workplace pension scheme, it is then the employee's decision, once enrolled, if they wish to opt out of the scheme.

Why do I need support with Pension Auto Enrolment?

While the principle of Pension Auto Enrolment is simple, delivering an ongoing assessment of every employee can be a complex and time consuming undertaking. If not managed properly it has the potential to require additional resources and add significant costs for your business. Our expert advice will ensure a successful transition and a cost effective outcome.

Why choose us?

We've designed a Pension Auto Enrolment solution specifically to meet the needs of engineering businesses. It's tailored to complement your existing payroll systems, supported by a Defaqto 5* pension scheme meaning you benefit from a comprehensive, cost effective solution that focuses on quality.

Unlike the majority of providers, who only offer either a basic assessment or access to a limited workplace pension scheme, we provide a whole range of added value services that will support your practice and its employees, including:

- **Comprehensive Auto Enrolment and HR advice**
- **Three years' ongoing support and guidance to aid a seamless implementation**
- **Best in class assessment, communication and engagement tools**
